ETH LIFE NEWS

RESEARCH SUCCESS BY THE DOZEN - PART TWO

Thanks to twelve outstanding professors, over 33 million Swiss francs from the European Research Council (ERC) will flow into ETH Zurich. They all receive an Advanced Grant, with which the ERC supports projects by top-flight researchers. ETH Life presents the winning projects in two parts.

Each of the successful applicants stands to receive up to 2.5 million euros for the project submitted in the next five years. After ETH Life presented the first six grantees on Wednesday, here are the second six in alphabetical order.

Understanding the nuclear envelope better

Kutay's research focuses on the dynamics of the nuclear envelope. With her ERC project, the professor from the Institute of Biochemistry is looking to research hitherto unexplained basic

Hotel Mec Paestum ***** - Paestum, Italy

We have come to visit this beautiful place which keeps record of a huge amount of historical moments, thanks to the activity of the archeologists which recovered the ruins of an entire roman city, Paestum, which was progressively abandoned by its inhabitants. This beautiful and flawless hotel is located near the archeological site, providing the clients a beautiful sight of the famous temples which have inspired also artists of the modern times, such as Pink Floyd. Local traditions have been influenced also by the Greeks, as well as Spanish, since the south of Italy has been ruled by many different powers through time.

Let yourself being drown into history and ancient traditions, enjoying

both at the same time history and food.

This region's traditions include thousands of exclusive recipes with local cultivated products.

About + Menu

Only the Best Ingredients

It's vital to our operation to make sure everybody is aware of the quality of the ingredients we use. As the choices we make in terms of which supplies we buy for our recipes is intrinsic to factors such as the healthiness of the food we make to the price you pay for it. That's why on our menus you find the origins of each of our ingredients.

Exercise 1.1 – Screenshots

Contacts

The screenshot displays a web interface with a blurred background of a restaurant interior. At the top, a 'Book a table' form is centered, featuring input fields for Name, Phone, Date, and Time, along with a larger Message field and a Book button. Below this, the page is divided into two columns: 'Opening Hour' and 'Contacts'. The 'Opening Hour' column lists the status for Monday (Closed), Tuesday to Friday (8am - 12am), Saturday to Sunday (7am - 1am), and Holydays (12pm-12am). The 'Contacts' column provides the address (4578 Zurich, Badenerstrasse 500), phone number ((606) 144-0100), and email (admin@laplace.com). A footer at the bottom contains copyright and design information.
